Alireza Gholizadeh

Software Engineer / Frontend Developer

Isfahan, Iran | Alirza.ghz1@gmail.com | 09146427737 | alirzagz | alirza-gz

Objective

A passionate Frontend Developer with expertise in React, TailwindCSS, and REST APIs, focused on creating seamless user experiences. Dedicated to delivering high-quality, scalable applications, and continuously learning the latest industry trends. Actively seeking opportunities to contribute to impactful projects and collaborate with dynamic teams in a full-time or contract role.

Education

MS **University of Isfahan**, Computer Software Engineering — Sept 2024 - Present

BS **University of Urmia**, Computer Software Engineering — Sept 2019 – July 2023

- GPA: 3.46/4.0
- **Relevant Coursework:** Computer Architecture, Data Structures, Theory of Languages and Automata, Operating Systems, Computer Networks, Analysis and Design of Algorithms, Database, Basics of Artificial Intelligence

Experience

Eftekhar Modiran, Frontend Developer - Part-time — Mar 2025 – Present

- Developed and maintained dynamic, responsive web applications using Next.js, Typescript, Tailwind CSS, and REST APIs.
- Collaborated with clients to design and implement user-friendly interfaces, ensuring high performance and scalability.
- Built reusable components to streamline development, enhancing the maintainability and scalability of projects.
- Integrated REST APIs to enable smooth communication between frontend and backend systems.
- Independently managed end-to-end project lifecycles, consistently meeting deadlines and delivering tailored solutions to clients.
- Reduced project delivery time by 30% through optimized code reuse.

Negin Bazr Danesh, Frontend Developer - Full-time — Mar 2024 – Nov 2025

- Developed and maintained dynamic, responsive web applications using React, Tailwind CSS, and REST APIs.
- Collaborated with clients to design and implement user-friendly interfaces, ensuring high performance and scalability.
- Built reusable components to streamline development, enhancing the maintainability and scalability of projects.
- Utilized React Testing Library to write and maintain unit and integration tests, ensuring code quality and reliability.
- Achieved a 20% reduction in loading times through code optimization and efficient asset handling.

Teaching Experience

University of Tabriz, Course Instructor — Tailwind CSS (Online) Feb 2025 – Apr 2025

- Delivered an online *Tailwind CSS* course covering fundamentals, component development, and advanced concepts.
- Prepared teaching materials (slides, examples, exercises) and guided learners through hands-on practice.
- Conducted a final assessment and evaluated participant progress.

Skills

Languages & Frameworks: HTML, CSS, JavaScript, Next.js, React.js, Redux-Toolkit, Typescript, Styled Components, TailwindCSS, Axios, REST API, React Hook Form

Tools & Libraries: Git, GitHub, npm, Vitest, React Testing Library

State Management: Redux, Context API, React-Query

Testing: Unit and Integration Testing (React Testing Library, Vitest)

Languages: Persian (Native), English (Intermediate; reading and writing)

Projects

Freelancering App GitHub Repository Live Demo

- Led the development of a full-stack app with distinct roles for Freelancer, Owner, and Admin, each with personalized dashboards.
- Owner creates projects, Freelancer submits proposals, and Admin oversees the process.
- Implemented token-based authentication using refresh tokens, ensuring secure access management.
- Tools Used: React.js, React-Router-DOM, React-Query, React-Hook-Form, Recharts, Axios, TailwindCSS, NodeJS, MongoDB.

Booking Hotel App GitHub Repository Live Demo

- Developed a complete hotel booking system with advanced state management using Context + Reducer and protected routes for enhanced security.
- Integrated advanced routing using React Router v6 for efficient navigation.
- Tools Used: React.js, React-Router-DOM, React-Hook-Form, Context, Reducer, Axios, TailwindCSS.

Digitize E-commerce Store GitHub Repository Live Demo

- Developed a fully functional e-commerce demo using ReactJS and TailwindCSS.
- Features include browsing products (mobile phones, laptops, and smartwatches), product filtering, sorting, and searching.
- Implemented a shopping cart system and a favorite list for users.
- Tools Used: React.js, React-Router-DOM, React-Hook-Form, Context, Reducer, Axios, TailwindCSS.

Inventory App GitHub Repository Live Demo

- Created a simple inventory management app, allowing users to add, sort, filter, and search products stored in local storage.
- Tools Used: React.js, React-Router-DOM, React-Hook-Form, Context, Reducer, TailwindCSS.
